There are many, many details involved in building a home. This list should be used to assist you in determining what you need to pick out during construction. Choices should be made well in advance of their installation. This will assure that long lead times will not cause delays. This is a general list and will be different for each house. Some of these things may be detailed on the plans or stated in the specifications list. The faster that you pick these things out, the more smoothly the project will proceed.
